CESAR PELLI HONORED AT RESIDENCES BY ARMANI/CASA

As **Maison&Objet Americas** arrived in town for its second year, **The Related Group's Jorge M. Pérez** and **Dezer Development's Gil Dezer** kicked off Miami's most prominent week in design with an intimate, oceanfront dinner at the **Residences by Armani/Casa** design center in Sunny Isles Beach. World-renowned Argentinean-born architect **César Pelli**, who designed the contemporary glass 60-story tower, joined the developers to celebrate the landmark first foray of the Armani brand into the U.S. real estate market. Guests had the opportunity to experience the modern aesthetic and luxurious comfort carefully curated by **Giorgio Armani**. Once the tour of the design center was completed, guests were treated to a sumptuous dinner under the stars on its elegant, oceanfront terrace. Pictured: **Eric Fordin, Carlos Rosso, Cesar Pelli, Sebastian Tettamanti, Jorge Perez** and **Gil Dezer**.
