SLS Lux Brickell

The 58 story SLS Lux Brickell located at 801 South Miami Avenue has topped off.

At the beginning of the year the SLS Lux Brickell was at the 10th floor and in December 2014 groundbreaking began on the project.

The SLS Lux Brickell is located across the street from the newly opened Brickell City Centre and the almost completed Brickell Heights. These three buildings, along with several other towers have dramatically changed the landscape of Brickell over the last three/four years.

Construction is expected to be completed September 2017.
