## 8 Posh Properties That Put Florida at the Forefront of Real Estate Development

### Auberge Beach Residences & Spa Fort Lauderdale

*By Rebekah Bell, March 27, 2017*

Developed by the Related Group and Fortune International Group, the 171-unit **Auberge Beach Residences & Spa Fort Lauderdale** comprises two curvaceous buildings on a pristine stretch of sand. Ranging in size from 1,500 to 5,000 square feet, the two- to five-bedroom residences are both contemporary and chic. Free-flowing floor plans, floor-to-ceiling glass windows, and soaring ceilings bring the outdoors in. Private elevator access guarantees a secluded entrance for residents, and spacious terraces with glass rails overlook the Atlantic Ocean and Intracoastal Waterway. Kitchens showcase Italian cabinets and Sub-Zero and Wolf appliances, while laundry rooms are outfitted with full-size washers and dryers. Deep soaking tubs stationed in the master bathrooms bring a resort-like feel to the residences.

Onsite amenities include a spa, wine cellar, cigar room, movie theater, golf simulator, and oceanfront pool. The North tower will be completed this December, and the South tower will open next summer. Prices range from \$1.5 million to \$8 million. ([aubergebeach.com](http://aubergebeach.com))
